Specimen Zone

Med Cups

ID Flags with
matching syringe strip

- Clearly identify all medications on the sterile field.
- Enhance communication among the surgical team.
- Make verification of medication easy and accurate for every team member.

Kits include everything you need to mark and label medication on the sterile field. Choose from Standard Kits or create a Custom Kit to fit your needs. Kits are sold with a combination of these unique products:

Medication Labels

Labels are made of a moisture- and smear-resistant polyester material. Will not tear or fall off when submerged in fluid. Preprinted with department specific medication names. Custom labels also available.

Markers*

“No Roll” triangular barrel markers come with a removable TIME OUT Sleeve™. Three types are available in these kits: Dual Tip/Dual Ink Markers; Single-Tip Markers; and Petite Permanent Markers.

Specimen Zone*

Assist in organizing and labeling specimens on the sterile field. Pre-numbered, fluid proof backing.

Med Cups

“No-Spill” Medication cups with orange lids. Adhesive tab on the bottom to prevent spills. Standard 60cc and 120cc.

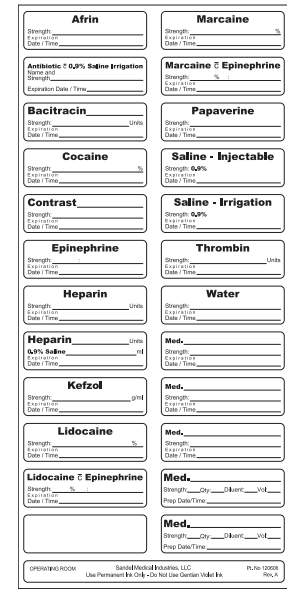

ID Flags with Syringe ID Strip*

Proprietary Flags make labels visible by the surgical team on the sterile field. Flags adhere to any surface yet leave no residue. Includes peel-off syringe ID strip of the same color for easy identification.
