ENGINEERED SHARPS INJURY PREVENTION
ERGONOMIC WORKPLACE SAFETY
MEDICATION AND SPECIMEN LABELING
WRONG-SITE SURGERY PREVENTION

ANSELL—THE COMPANY YOU TRUST FOR HAND PROTECTION NOW OFFERS YOU THE FULL LINE OF SANDEL SAFETY PRODUCTS

ANTICIPATE THE UNEXPECTED IN PERIOPERATIVE SAFETY
HEALTHCARE SAFETY DEVICES THAT ENHANCE PROTECTION FOR HEALTHCARE WORKERS AND PATIENTS

TOGETHER, WE’RE RAISING THE STANDARDS OF PERIOPERATIVE SAFETY

Ansell, a global leader in protection solutions, is proud to extend its reach into the perioperative environment with the complete SANDEL line of healthcare safety devices.

Ansell is dedicated to providing safety solutions that eliminate, prevent, or significantly reduce workplace accidents and resulting injuries before, during, and after surgery.

By collaborating with nurses, surgical teams, and healthcare experts, we have been able to identify important safety issues and determine how the standard of care can be elevated to reduce safety hazards for both patients and healthcare staff. The resulting SANDEL products have been developed to resolve the specific safety and ergonomic needs identified in a cost-effective manner. It is our hope that these innovative healthcare safety devices will deliver the added confidence and peace of mind all healthcare professionals need to perform at their best.

TABLE OF CONTENTS

1. ENGINEERED SHARPS INJURY PREVENTION 3–6
   - Change-A-Blade®
   - Weighted and Non-Weighted Safety Scalpels
   - Scalpel Disarmer™
   - Neutral Zone
   - Hands-Free Transfer Trays
   - Ordering Information

2. ERGONOMIC WORKPLACE SAFETY 7–10
   - Patient Transfer System
   - Cord Cover
   - Absorbent Floor Pad
   - Step Stools
   - Anti-Fatigue Mats
   - Sit-Stand Stool
   - Ordering Information
   - 9-10

3. MEDICATION AND SPECIMEN LABELING 11–14
   - Correct Medication Labeling System™
   - Correct Specimen Handling System™
   - Ordering Information
   - 13-14

4. WRONG-SITE SURGERY PREVENTION 15–18
   - TIME OUT® Hood
   - TIME OUT® Beacon
   - TIME OUT® Sleeve
   - TIME OUT® Markers
   - Correct-Site Surgery Stickers & Tattoos
   - Ordering Information
   - 17-18

5. UTILITY PRODUCTS 19–20
   - Permanent Markers
   - Cord & Tube Holder
   - Suture Bag
   - Writing Pen with Light
   - Ordering Information
   - 20

6. SAFETY KITS 21–22
   - TIME OUT® Safety Kits
   - Change-A-Blade® Safety Kits
   - Ordering Information
   - 22
HELPING ELIMINATE THE THREAT OF SHARPS INJURIES

In the United States, 600,000 to 800,000 sharps injuries occur annually. Ansell has anticipated the need for safer ways to handle sharps and responded with the full line of SANDEL Engineered Sharps Injury Prevention (ESIP) products. These devices are designed to eliminate the threat of sharps injuries, potentially reduce the transmission of blood-borne pathogens, and help healthcare workers comply with OSHA, AORN, and ACS.

CHANGE-A-BLADE®

The SANDEL Change-A-Blade® is a disposable scalpel handle with a built-in protective safety shield.
- Compatible with any manufacturer’s stainless steel or carbon steel blades
- Weighted to the feel of a conventional handle
- Does not require any change in the surgeon’s technique
- Allows for multiple blade changes in the same procedure
- Available in a range of handle sizes compatible with multiple standard blade sizes
- Comes with a removable TIME OUT® Sleeve*

WEIGHTED AND NON-WEIGHTED SAFETY SCALPELS

The SANDEL disposable Weighted and Non-Weighted Safety Scalpels provide a sliding shield to cover the surgical blade and help prevent injuries.
- Available in a wide variety of surgical blade and handle sizes
- Mimic the feel of a standard scalpel
- Color-coded protective safety shields for proper blade identification
- Safety-shield button easily locks and unlocks with either left- or right-handed use
- Come with a removable TIME OUT® Sleeve*

SCALPEL DISARMER™

The SANDEL Scalpel Disarmer™ is a blade and needle counting and disposal box designed to help safely remove and dispose of scalpel blades and needles.
- Two separate, removable halves with adhesive tape to provide safety and stability on any surface
- Easily locks for safe disposal
- Specially designed mechanism for safely removing blades from the Change-A-Blade® or any standard scalpel handle
- Available with a magnet or foam surface for counting needles

*Please see pages 15-16 for more information about TIME OUT®.

S=sterile  NS=non-sterile

NEUTRAL ZONE
The SANDEL Z-Friction Drape™ provides a flexible, non-skid neutral zone on the sterile field for the placement of sharps and minimization of hand-to-hand transfer.
- Distinctive bright orange color
- Adaptable design, allowing it to be cut and placed in two locations
- Non-magnetic, non-slip design holds instruments in place and keeps them from sliding off the sterile field

HANDS-FREE TRANSFER TRAYS
The SANDEL Z-Tray™ and Stretch-A-Tray™ protect the surgical team by providing a designated area for placement and retrieval of sharps, minimizing the risk of sharps injuries.
- Distinctive bright orange color
- Two different designs to accommodate a wide variety of sharps, handles, and instruments
- Includes adhesive strip for use as a non-movable neutral zone where sharps can be safely placed

The ordering information includes product type, code number, product name, description, packaging, and case quantity. Each product is detailed with specific features and usage instructions.
The incidence rate of lost-workday injuries from slips, trips, and falls for US hospital employees is 90% greater than the average rate for all other private industries combined. These types of injuries are the second most common cause of lost-workday injuries in hospitals. Additionally, more than $15 to $20 billion is spent in workers’ compensation costs for musculoskeletal disorders each year. SANDEL safety solutions offer cost-effective ways to help prevent these common injuries and comply with OSHA regulations for workplace safety.

The SANDEL Z-Slider® Patient Transfer & Repositioning Sheet helps prevent disabling back injuries to staff by decreasing physical strain to the back, shoulders, neck, and arms.

- Supports proper patient handling and ergonomic techniques
- Reduces the potential for patient skin tears, abrasions, and bruising
- Disposable, reducing the potential for cross-contamination
- Single-patient use, designed for multiple uses with the same patient
- No weight limit

The SANDEL Trip-No-More™ is a bright orange disposable cord cover designed to keep cords and tubes in place on the floor and reduce trips and falls.

- Adhesive strips keep it firmly in place
- Easy to apply and remove—leaves no residue on the floor
- Distinctive orange color
- Available in a variety of lengths

The SANDEL DrFloor™ Absorbent Floor Pad collects fluids to prevent slips and falls and improve the efficiency of cleanup, reducing costly turnover time.

- Eliminates the unsanitary and inappropriate use of blankets or towels on the floor
- Fluid-proof backing keeps the floor dry underneath the pad
- Available in a variety of sizes

The SANDEL Ergo-Step™ Stools are lightweight, stackable, "next generation" replacements for traditional, heavy, metal step stools.

- Lightweight (~8lbs) and easy to handle
- Weight capacity of approximately 500 lbs
- Anti-skid feet keep it firmly in place
- Distinctive bright orange color
- Can be interlocked to create a safe work platform

SANDEL Ergo-Stand EZ™ Anti-Fatigue Mats reduce stress and strain on joints caused by standing in one place for an extended period of time.

- Lightweight and reusable
- Available in a variety of sizes
- Beveled on all sides to prevent tripping
- Can be placed on step stools during long procedures
- Disposable cover available for solo mat to keep it clean and reduce turnover time

The Standel™ Sit-Stand Stool helps reduce fatigue and relieve pressure on the feet, legs, and back due to standing in the same position during long procedures.

- Designed for use in multiple locations such as the OR or nurses’ stations
- Adjustable height from 20” to 30”
- Weight capacity of 330 lbs

ENHANCING COMMUNICATION AND REDUCING ERRORS

39% of medication errors are due to naming, labeling, or packaging. Medication errors cause at least one death every day in the United States and injure approximately 1.3 million people annually. The SANDEL Correct Medication Labeling System™ provides the tools you need to accurately label medications to help prevent potentially costly errors and keep your facility in compliance with The Joint Commission’s requirements.

CORRECT MEDICATION LABELING SYSTEM™

Ansell provides a wide range of medication labeling kits customized specifically for each environment—from ophthalmic to labor & delivery—designed for clarity and functionality:
- Kits can include a variety of medication labels, markers, flags, medication cups, and more to suit your needs
- Proprietary flag system increases the visibility of labels and provides a color-coded strip for the syringe
- Labels are moisture- and smear-resistant and will not tear or fall off when submerged in fluid
- Labels are tailored for individual specialties and preprinted with department-specific medication names
- Kits can be customized based on your department’s specific needs

IMPROVING ACCURACY AND PATIENT CARE

Hospitals experience nearly one error per 1,000 specimen labels. Nearly 30% of these errors are mislabeled specimens, the most common error type. This is especially problematic since these types of mistakes are the ones that often have the greatest impact on patient safety and healthcare costs. The SANDEL Correct Specimen Handling System™ is designed to improve clarity and help eliminate these errors to improve overall accuracy and safety.

CORRECT SPECIMEN HANDLING SYSTEM™

The SANDEL Correct Specimen Handling System™ provides a multitude of options to label and organize specimens:
- Labels allow for clear, lasting identification of specimens to help reduce errors
- Distinctive bright orange color
- Containers available in both sterile and non-sterile options

WRONG-SITE SURGERY PREVENTION

HELPING TO REDUCE SURGICAL ERRORS

The Joint Commission’s Universal Protocol, as part of their National Patient Safety Goals, requires taking a “time out” to verify the site, procedure, and patient prior to the start of surgery—helping to avoid potential mistakes. SANDEL TIME OUT® products serve as prominent reminders to the surgical team to comply with these requirements and help reduce the incidence of errors.

TIME OUT® HOOD

The TIME OUT® Hood can be placed over instruments, to be removed before use, as a reminder to take the “time out” before beginning a procedure.
- Distinctive bright orange color
- Reusable hood can be placed over any scalpel or other instrument
- Can be sterilized in the instrument tray

TIME OUT® BEACON

The TIME OUT® Beacon can be placed over the surgical site, Mayo stand, or back table as a barrier that must be removed before the incision is made to remind the surgical team to take a “time out.”
- Distinctive bright orange color
- Available in cotton or a disposable, non-woven biodegradable material
- Can be sterilized with steam or ETO

TIME OUT® SLEEVE

Slip the TIME OUT® Sleeve over a standard scalpel handle before setup or place it on the Mayo stand or back table as a prompt for the surgical team to take the “time out.”
- Distinctive bright orange color
- Included with SANDEL Safety Scalpels, Change-A-Blade®, and 4-in-1 Marker™
- Comes with a ruler on the side panel

HELPING TO ENSURE ACCURACY

It is estimated that 1,500 to 2,500 wrong-site incidents occur each year in the United States alone. SANDEL Wrong-Site Surgery Prevention products provide a variety of ways to mark the correct surgical site and help eliminate mistakes.

TIME OUT® MARKERS

SANDEL TIME OUT® Skin Markers are designed to mark the correct surgical site on a patient’s skin.
- Distinctive bright orange color
- Triangular barrel prevents rolling
- Available in both single- and dual-tip with multiple thickness options

CORRECT-SITE SURGERY STICKERS & TATTOOS

Correct-Site Surgery Stickers & Tattoos can be placed on the patient to mark the correct surgical location.
- Green and white coloring stands out against all skin colors
- Available in multiple sizes

# Utility Products

**Keep the Sterile Field Organized and Efficient**

The SANDEL line offers a cohesive set of products that help maximize organization and safety in the surgical environment.

## Permanent Markers

SANDEL Permanent Markers with a “no-roll” barrel can be used for clear labeling of medications.

- Distinctive bright orange color
- Triangular barrel prevents rolling
- Available in both sterile and non-sterile versions
- Can be purchased individually or as part of a SANDEL Correct Medication Labeling System™

### Code Number: 1000-NNS

- **Product Name:** SANDEL Permanent Marker Single Tip “No Roll” Permanent Marker, Black Ink (NS)
- **Description:** 100/Bag
- **Packaging:** 4 Bags/Cs
- **Case Qty.:** 400

### Code Number: 1001-L

- **Product Name:** SANDEL Permanent Marker Single Tip “No-Roll” Permanent Marker, Black Ink with 8 Labels Preprinted with Prompts for Medication Name & Strength (S)
- **Description:** 25/Bx
- **Packaging:** 4 Bx/Cs
- **Case Qty.:** 100

### Code Number: 1002-NNS

- **Product Name:** SANDEL Petite Permanent Marker Petite Single Tip “No-Roll” Permanent Marker, Black Ink (4” in length) (NS)
- **Description:** 50/Bag
- **Packaging:** 10 Bags/Cs
- **Case Qty.:** 500

## Cord & Tube Holder

The SANDEL Cord & Tube Holder is designed to keep cords and tubes organized on the sterile field.

- Distinctive bright orange color
- Adhesive backing keeps it firmly in place

### Code Number: 1117

- **Product Name:** Z-Cord Holder™
- **Description:** Sterile Holder for Tubes and Cords (S)
- **Packaging:** 50/Bx
- **Case Qty.:** 2 Bx/Cs

## Suture Bags

Keep materials organized with the SANDEL Z-Suture Saddle Bag™, a clear plastic bag that allows for easy identification of its contents.

- Can be draped over the back table or the Mayo stand
- Perforated so the bags can be hung in separate locations

### Code Number: 1130

- **Product Name:** Z-Suture Saddle Bag™ Clear Plastic 20” Saddle Bag for use on Mayo Stand or Back Table (S)
- **Packaging:** 50/Bx
- **Case Qty.:** 2 Bx/Cs

### Code Number: 1134

- **Product Name:** Z-Suture Saddle Bag™ Clear Plastic 24” Saddle Bag for use on Mayo Stand or Back Table (S)
- **Packaging:** 50/Bx
- **Case Qty.:** 2 Bx/Cs

## Writing Pen with Light

For any healthcare professional who needs to take notes in a dim environment, the Z-Write Lite™ provides a focused light to increase accuracy of documentation without disturbing the surrounding area.

- Distinctive bright orange color
- Available in sterile and non-sterile versions

### Code Number: 1050

- **Product Name:** Z-Write Lite™
- **Description:** Writing Pen with Light (S)
- **Packaging:** 20/Bag
- **Case Qty.:** 40 Bx/Cs

### Code Number: 1050-NS

- **Product Name:** Z-Write Lite™ (NS)
- **Description:** Writing Pen with Light (NS)
- **Packaging:** 50/Bx
- **Case Qty.:** 2 Bx/Cs

### Code Number: 1050-BC

- **Product Name:** Z-Write Lite™ (Sterile)
- **Description:** Writing Pen with Light (S)
- **Packaging:** 20/Box
- **Case Qty.:** 1 Bx/Cs

### Code Number: 1050-BCNS

- **Product Name:** Z-Write Lite™ (NS)
- **Description:** Writing Pen with Light (NS)
- **Packaging:** 25/Bag
- **Case Qty.:** 1 Bag/Cs
